1. Do you think the conceptual design of the Draft Framework works? What would you change?

No as there is no core professional knowledge included in framework

2. Are there any elements that you would add, amend, or remove?

Would add core professional knowledge into framework

3. Would a Framework along the lines of the draft Framework be useful to you in your career or workplace? How could you see it being used?

No I could see employers thinking they don't need to employ librarians anymore. It has already happened at a council where the manager is not a librarian and doesn't recognise other librarians. There is no professional development for librarians.

4. Is LIS professional recognition valuable to you? What changes would you like to see to professional recognition?

I would like to see core foundational knowledge recognised.

5. Any other comments?

If ALIA is looking for more members take away the institutional membership and more people will join as individuals
