

Name: UNSW Library

Thanks for the opportunity to provide feedback on the phase 2 consultation. UNSW Library has also feedback at other stages of the framework's development.

UNSW Library is already using the draft framework in our capability planning for all staff. We introduced the current draft in our meeting with supervisors and managers this week and mapped the framework to our Library capabilities and expectations. The framework is very well aligned with our work as a research-intensive university library, and only required minor adjustments for context. We commend ALIA on all the work done to create the framework and incorporate feedback. We are pleased with the framework as-is and would be happy to be used as a reference site in future if you would like more details about how we are applying it.
